

ADMINISTRATIVE CLAIMS AND HEARINGS

LABOR AND EMPLOYMENT DIVISION

Our attorneys have vast experience handling administrative claims brought before the US Equal Employment Opportunity Commission, the Florida Commission on Human Relations and local County Commissions on human relations across Florida. We regularly defend employers in claims brought before these and other related entities, which frequently involve investigation of claims, preparation of written responses, processing of subpoenas for client information, and administrative hearings. Our lawyers have developed relationships with investigators and other professionals at those agencies, which we are able to bring to bear on behalf of our clients.
