

FAMILY AND MATRIMONIAL LAW

LITIGATION DIVISION

Our lawyers handle your family matters with discretion, sensitivity and compassion. We understand the emotional, financial and practical aspects of divorce, child custody disputes, and pre- and post-nuptial agreements.

We handle divorces, business valuation disputes, alimony, child-support and custody, time-sharing agreements, domestic violence injunctions, enforcement, contempt motions and modification of existing orders and judgments. We seek cooperation and agreement wherever possible and are fully prepared to seek court relief where necessary. We are your advocates working to protect and further your best interests and to bring calm and comfort to what is often a turbulent and life-changing event. We also represent international clients and work closely with forensic accountants and other experts to assist in prosecuting contested cases in the most cost-effective way possible.

We view your problems and your solutions from the point of view of a parent, a child and an advocate, always providing the best experience to our clients as we can.
