In addition, pursuant to the Governor’s Executive Order 20-112, groups of more than ten (10) people are not permitted to congregate in any public space that does not readily allow for the required social distancing.

All owners, operators, and persons involved in the provision of essential services or other additional goods, services, or amenities permitted by this Emergency Order shall ensure compliance with the CDC Guidelines and all additional requirements stated in this Emergency Order by all workers (to the extent they exercise any supervisory authority or control over such workers) providing any goods, services, or amenities and by all persons receiving or availing themselves of such goods, services, or amenities. - 2) Whenever feasible, allow employees to telework or establish a rotation or staggered schedule to reduce the number of employees working on site.
- 3) Where telework is not possible, consider how your current workspace can be reconfigured by installing physical barriers or implementing other measures that allow for social distancing.
- 4) To the extent possible, implement flexible sick leave policies and reiterate existing sick time and paid time off policies to discourage employees from coming to work if they feel ill.
- 5) Develop a plan for monitoring your employees' health, with a particular focus on COVID-19 symptoms, with the goal of preventing ill employees from working.
- 6) Establish contingency plans for the handling of a positive case of COVID-19 in your workplace. OSHA's guidelines give specific steps on how to manage and isolate employees displaying COVID-19 symptoms (<https://www.osha.gov/Publications/OSHA3990.pdf>).
- 7) Develop or update your employee contact system (e.g. phone tree, social media, texting) so you have a way to quickly reach all staff if there is a workplace COVID- 19 exposure.
- 8) Ensure that employees wear facial coverings in the workplace when within six feet of someone else and when required by Broward EO 20-07, as amended. Social distancing of six feet should be practiced to the maximum extent possible, even when facial coverings are worn.
- 9) Require customers, clients, and other visitors to the business to wear facial coverings in accordance with Broward County EO 20-07, as amended.

Patrons are prohibited from congregating at the bar counters or elsewhere. Parties shall be limited to no more than ten (10) persons. Drive-through, curbside take out, or delivery service may continue in accordance with CDC Guidelines and all applicable Broward County Emergency Orders. Social distancing requirements do not apply to members of the same household.

A. Operations Requirements.

- 2) Ensure adequate supplies to support healthy hygiene practices for both employees and customers, including soap, hand sanitizer with at least 60 percent alcohol, and tissues, and make hand sanitizer readily available to guests. If disposable items are not feasible, ensure that all non-disposable food service items are handled with gloves and are washed in between each customer usage with dish soap and hot water or in a dishwasher. Establishments must use packets or pre-rolled bags or wraps of utensils and eliminate table presets. Avoid using food and beverage implements brought in by customers.
- 5) Use touchless payment options whenever available. Ask customers and employees to exchange cash or card payments by placing on a receipt tray or on the counter rather than hand to hand. Sanitize any pens, counters, or hard surfaces between each use.

Where possible, stagger workstations instead of having employees standing opposite one another. If there is a break room, limit the number of employees simultaneously allowed inside.

10) Wherever possible, install physical barriers, such as sneeze guards and partitions, at cash registers, check-in stations, food pickup areas, and other areas where consistently maintaining physical distance of six feet is difficult.

11) Ensure that all suppliers and third-party delivery staff are aware of social distancing requirements.

Tables and other dining areas must be sanitized after each use. Host stations must be sanitized at least hourly. Use products that meet EPA's criteria for use against COVID-19 and that are appropriate for the surface.

3) Restrooms must be sanitized no less frequently than hourly.

4) Implement procedures to increase how often you clean and sanitize surfaces in the back-of-house (non-public areas of the establishment). Ensure that disinfectants used on food contact surfaces are appropriate and do not leave a toxic residue.

5) Train all employees in the above safety protocols, in addition to the importance of frequent handwashing, and give them clear instructions to avoid touching hands to face.

6) Conduct daily health checks (e.g., temperature and symptom screening) of employees in accordance with the Governor's EO 20-68 and in accordance with any applicable privacy laws and regulations. Remind employees to report any illness to their manager and have them verify that they have not had any COVID-19 symptoms each day prior to them coming to work.

7) Employees with symptoms of COVID-19 (fever, cough, or shortness of breath, among others) at work should immediately be sent home. Provide with or refer sick staff members to the CDC guidelines and advise them not to return until they have met the CDC's criteria to discontinue home isolation. Sick employees not exhibiting COVID-19 symptoms should also be immediately sent home and not be allowed to return until they are symptom-free.

8) Notify local health officials, staff, and customers (if possible) immediately of any confirmed case of COVID-19 while maintaining confidentiality as required by HIPAA, the Americans with Disabilities Act (ADA), or other applicable laws.
